

# Brainstorm

Submit your questions in the Brainstorm suggestion boxes, call the Brainstorm Hotline at 8-5777 or send an e-mail to brainstorm.

**Q** *I would like to suggest that a distribution list be established for the alerts from IS, RIS, Mysis, Pyxis, etc. The lists would only have to include staff that has security access to the system. There are times that my current and deleted e-mail folders are jammed up with alerts when systems are up and down and they don't pertain to me. I don't have time to clean my deleted e-mails on a daily basis, and I would guess that there are many others that don't clean their's either. If they don't have time to establish a list, I would be very happy if I had the ability to "opt off" of a list by replying to an e-mail with "delete my name" on the subject line. By eliminating some of this random mail I would think that we would have more available memory in the entire system.*

**A** Your idea is a good one and is something that we have on the drawing board, but do not have a timetable for completion as there are many other projects with a higher priority. Another solution for you would be to create a rule on Outlook that would automatically feed the downtime alerts to a separate folder. The problem with that is that they would all go there, and you would not be informed if an alert

came out that did pertain to you and your job. If you want to create this rule, please e-mail the Help Desk, and they can send you instructions.

**Q** *Are there two employee shuttles running in the morning and afternoon? There are many employees who work this shift, and there has been numerous times where the shuttle leaves someone in the lot because the bus is full.*

**A** Thank you for your question about shuttle service. There have been two drivers in the morning, but one of our drivers for the afternoon went on leave unexpectedly, and the position took longer than anticipated to fill. We apologize for the inconvenience.

**Q** *Why doesn't Luther Midelfort get involved with Meals on Wheels? It would be good PR and an added benefit to the community.*

**A** While Meals on Wheels is certainly an excellent program and a benefit to our community, the Food & Nutrition Services Department is unable to consider playing an active role in the program at this time due to other core obligations.

**Q** *As the weather becomes colder and wet with rain and snow, will we have more rugs in front of the new turn-style entrance of MCLC? This would eliminate a lot of mess and the chance of a patient slipping. We could have one big rug or more than just the one that is there now.*

**A** We are currently reviewing samples of different styles so that the mat we place there will be functional, but attractive. The plan is to have mats placed at all of our entrances within the next few weeks.

## Answer to LEO Poll!

**R**ecently, a poll on LEO showed that many employees don't know what number to call in an emergency. The emergency number at LH and MCLC is:

**8-3333**

If the situation is life threatening:

- Call 8-3333
- Request Code Blue Team
- Give exact location
- Indicate if person is less than 13 years old

If you dial "0," the call goes with the other nonpriority calls which are answered in the order they are received. This may result in a delay. **At the Clairemont Campus, dial 8-6789.**
